EXPERIENCE

Independent Full Stack Developer

Self-directed / Freelance — Remote, Lagos, Nigeria | 2023 — Present

- Self-taught full stack development from the ground up — starting with HTML & CSS in 2023, progressing through JavaScript, React, and into full stack work with Node.js, Firebase and PostgreSQL by 2024.
- Designed, built and deployed 20+ web projects and products, including SaaS platforms, e-commerce systems and school management software.
- Handled projects end-to-end: frontend, backend, database design, and deployment on Vercel.
- Delivered work for 10+ clients, collaborating directly with founders and stakeholders to scope, design and ship products.

Independent Artist & Songwriter — GLASSKID

Self-released | 2024 — Present

- Wrote, recorded and released 15+ original songs, blending Afrobeats, Hip-Hop, R&B and Pop influences.
- Built and maintain a personal platform (glasskid.vercel.app) to release music alongside development and creative work.
