

# Prince Dennis (GLASSKID)

Full Stack Web Developer • Artist • Songwriter • Creative Technologist

Lagos, Nigeria | hello@glasskid.dev | +234 813 123 4567 | glasskid.vercel.app

## Summary

Full stack developer and creative technologist from Lagos, Nigeria, building fast, scalable, modern web applications with React, Next.js, TypeScript and Node.js. Also an independent artist and songwriter, blending technical craft with creative storytelling across code and music.

## Skills

JavaScript / TypeScript · React & Next.js · React Native · Vue · Tailwind CSS · Node.js · Firebase · PostgreSQL · MongoDB · TanStack · UI/UX Design · AI Integrations

## Experience

**Freelance Full Stack Developer** — Self-employed, Remote | 2022 — Present

- Designed and built web applications, SaaS platforms and portfolios for clients in Nigeria and abroad.
- Delivered end-to-end products: frontend, backend, database and deployment.
- Collaborated directly with founders to scope, design and ship MVPs quickly.

**Independent Artist & Songwriter** — GLASSKID | 2021 — Present

- Wrote, recorded and released original music across Afrobeats, Hip-Hop, R&B and Pop.
- Built and maintain a personal platform to showcase music, writing and development work.

## Selected Projects

- **Nexora** — SaaS platform for managing projects, teams and analytics (Next.js, TypeScript, Tailwind).
- **Cherry Noble School** — School management system with student, teacher and exam modules (React, Firebase).
- **Echoes** — Music streaming platform for emerging artists (Next.js, Node.js, TypeScript).

## Education

Self-taught developer — continuous learning through building, shipping and real client work.
